

Environmental Policy

For

Starkold Building Services Ltd

Starkold Building Services is committed to providing waste management services that give the highest priority to the environment in which it operates. The company strives for continual improvements and will take a considered and proactive approach to reducing the environmental impacts of its operation. This will include:

- Setting objectives on the prevention of pollution, and waste disposal initiatives including waste minimisation and recycling.
- Conservation of energy, water raw materials and other natural resources.
- Wherever practical, promoting the re-use of materials and/or packaging
- Maintaining an efficient transport fleet to minimise fuel usage and atmospheric contamination.
- Providing all employees with appropriate education, training and support to fulfil their obligations in accordance with the Company's Environmental Policy.
- Regularly reviewing our Environmental Policy for suitability and effectiveness.
- Ensure compliance with legislation.
